Truth is a powerful marketing tool—and really the only way to promote a message and brand effectively. Truth in advertising has long been something to ignore, or at least downplay. The role of advertising has been to position and manipulate brands to convince consumers that they're imbued with qualities they don't necessarily possess, or presume to tell them which ones matter. It worked when the brand's voice was the only voice, but with the rise of social media that era is over. Marketers have focused their messages on entertainment, creating funny or engaging campaigns that win awards but don't always sell products. Consumers determine what's true, and smart companies have realized that every communications medium can and will be used to contribute to those conclusions. In Tell the Truth, Jonathan Baskin and Sue Unerman look at the content and context of marketing communications. They provide the research of hundreds of companies and in-depth case studies on more than 50 global brands to show us that truthful brands deliver sales, profits, and sustainable relationships. Truth truly yields true competitive advantage.

If you ' re like most people, you probably lied today. It may have been a small one, some insignificant falsehood meant to protect someone ' s feelings or guard your true thoughts. Now imagine if your parents ingrained in you a compulsion to never, under any circumstances, withhold the truth or fail to speak your mind. It might be wonderfully freeing. Everyone else might not appreciate it so much. To Be Honest is Michael Leviton ' s extraordinary account of being raised in a family he calls a " little honesty cult. " For young Michael, his parents ' core philosophy felt liberating. He loved " just being honest. " By the time he was twenty-nine years old, Michael had told only three " lies " in his entire life. But this honesty had consequences—in friendships, on dates, and at job interviews. And when honesty slowly poisoned a great romance, Michael decided there had to be something to lying after all. He set himself the task of learning to be as casually dishonest as the rest of us.
