Highlights Watergate as a critical turning point in Christian engagement in US politics The Watergate scandal was one of the most infamous events in American democratic history. Faith in the government plummeted, leaving the nation feeling betrayed and unsure who could be trusted anymore. In *Evil Deeds in High Places*, David E. Settje examines how Christian institutions reacted to this moral and ethical collapse, and the ways in which they chose to assert their moral authority. Settje argues that Watergate was a turning point for spurring Christian engagement with politics. While American Christians had certainly already been active in the public sphere, these events motivated a more urgent engagement in response, and served to pave the way for conservatives to push more fully into political power. Historians have carefully analyzed the judicial, media, congressional, and presidential actions surrounding Watergate, but there has been very little consideration of popular reactions of Americans across the political spectrum. Though this book does not aspire to offer a comprehensive picture of America's citizenry, by examining the variety of Protestant Christian experiences—those more conservative, those more liberal, and those in between—and by incorporating analyses of both white and black Christian reactions, it captures a significant swath of the American population at the time, providing one of the only studies to examine how everyday Americans viewed the events of Watergate. Grasping the dynamics of Christian responses to Watergate enables us to comprehend more completely that volatile moment in US history, and provides important context to make sense of reactions to our more recent political turmoil.

This early work by Robert E. Howard was originally published in 1936 and we are now republishing it with a brand new introductory biography. 'Evil Deeds at Red Cougar' is a story in the Breckinridge Elkins series about a cowboy in the wild west. Robert Ervin Howard was born in Peaster, Texas in 1906. During his youth, his family moved between a variety of Texan boomtowns, and Howard – a bookish and somewhat introverted child – was steeped in the violent myths and legends of the Old South. At fifteen Howard began to read the pulp magazines of the day, and to write more seriously. The December 1922 issue of his high school newspaper featured two of his stories, 'Golden Hope Christmas' and 'West is West'. In 1924 he sold his first piece – a short caveman tale titled 'Spear and Fang' – for \$16 to the not-yet-famous *Weird Tales* magazine. Howard's most famous character, Conan the Cimmerian, was a barbarian-turned-King during the Hyborian Age, a mythical period of some 12,000 years ago. Conan featured in seventeen *Weird Tales* stories between 1933 and 1936 which is why Howard is now regarded as having spawned the 'sword and sorcery' genre. The Conan stories have since been adapted many times, most famously in the series of films starring Arnold Schwarzenegger.

In the early morning hours of December 31, 2010, Dr. Cornelius H. Evans and his wife received a terrible phone call: their son, Bryant, had been shot and killed. The agonizing days that followed brought Evans face-to-face with the realization that evil had touched his family's life, sending him on a quest to try to understand the role evil plays in our world. Deeply emotional and heartfelt, *Surviving Evil in a Depraved Society* offers insight into how Evans dealt with the loss of his son by analyzing the root of violence in America—evil. He examines various theories on evil and its origin, its effects on mankind, and how, according to the Christian belief, evil will remain a part of our society until Christ returns. Evans also challenges ideologies, philosophical beliefs, and theologies on whether one can avoid evil elements. He demonstrates that we can be on our guard against inviting evil into our lives by spiritually guarding ourselves and raising our children with a strong moral foundation. An eye-opening look at the face of evil, *Surviving Evil in a Depraved Society* offers hope for living in today's world.
