People who are evil attack others instead of facing their own failures. Peck demonstrates the havoc these people of the lie work in the lives of those around them. He presents, from vivid incidents encountered in his psychiatric practice, examples of evil in everyday life.

People of the Lie: The Hope for Healing Human Evil: M ...
"People of the lie" are what Peck calls evil people -- those who refuse to acknowledge their own sin, who scapegoat other people instead, not just occasionally but routinely. Peck believes evil people are both common and ordinary-looking, more likely to be a church deacon than a psychopath, because they create a respectable veneer that belies their callous, independent hearts.

We become an entire "People of the Lie", poisoned by the kind of calculating evil, the cynical inversion of the good, that psychiatrist M. Scott Peck described in his groundbreaking 1983 book with that title. We're nearly there as a nation, which raises the question: What do we do now?

People of the Lie - The Catholic Thing
Probing Human Evil The famous psychiatrist and author of the widely-read book The Road Less Traveled, M. Scott Peck, wrote a lesser-known work in the late 1990’s entitled People of the Lie. In it, Peck examined the concept of human evil along with how and why it manifests.

People of the Lie - The Christian Post
While they seem to lack any motivation to be good, they intensely desire to appear good. Their "goodness" is all on a level of pretense. It is, in effect, a lie. This is why they are the "people of the lie." Actually, the lie is designed not so much to deceive others as to deceive themselves. They cannot or will not tolerate the pain of self-reproach.

A gripping book from the bestselling author of hugely popular self-help book, The Road Less Travelled. Leading psychiatrist and self-help pioneer Dr M.Scott Peck reveals his encounters with evil, during sessions with patients of his psychiatric therapy. "The patient suddenly resembled a writhing snake of great strength. . . More frightening than the writhing body, however, was the face. The eyes were hooded with lazy reptilian torpor. . ." This is the second bestselling book by Dr M. Scott Peck. In this gripping psychology book, the leading psychiatrist describes his encounters during psychiatric therapy with patients who are not merely ill but manifestly evil - People of the Lie. This brilliant, disturbing book forces us to confront the darker side of our natures and to recognise that without spiritual and religious dimension, modern psychiatry cannot claim to understand human nature or behaviour. It is a worthy successor to The Road Less Travelled.

"So compelling in its exploration of the human psyche, it's as hard to put down as a thriller...such a force of energy, intensity, and straightforwariness.

The legendary bestselling author and renowned psychiatrist M. Scott Peck, whose books have sold over 14 million copies, reveals the amazing true story of his work as an exorcist -- kept secret for more than twenty-five years -- in two profoundly human stories of satanic possession. In the tradition of his million-copy bestseller People of the Lie: The Hope for Healing Human Evil, Scott Peck's new book offers the first complete account of exorcism and possession by a modern psychiatrist in this extraordinary personal narrative of his efforts to heal patients suffering from demonic and satanic possession. For the first time, Dr. Peck discusses his experience in conducting exorcisms, sharing the spellbinding details of his two major cases: one a moving testament to his healing abilities, and the other a perilous and ultimately unsuccessful struggle against darkness and evil. Twenty-seven-year-old Jersey was of average intelligence; a caring and devoted wife and mother to her husband and two young daughters, she had no history of mental illness. Beccah, in her mid-forties and with a superior intellect, had suffered from profound depression throughout her life, choosing to remain in an abusive relationship with her husband, one dominated by distrust and greed. Until the day Dr. Peck first met the young woman called Jersey, he did not believe in the devil. In fact, as a mature, highly experienced psychiatrist, he expected that this case would resolve his ongoing effort to prove to himself, as scientifically as possible, that there were absolutely no grounds for such beliefs. Yet what he discovered could not be explained away simply as madness or by any standard clinical diagnosis. Through a series of unanticipated events, Dr. Peck found himself thrust into the role of exorcist, and his desire to treat and help Jersey led him down a path of blurred boundaries between science and religion. Once there, he came face-to-face with deeply entrenched evil and ultimately witnessed the overwhelming healing power of love. In Glimpses of the Devil, Dr. Peck's celebrated gift for integrating psychiatry and religion is demonstrated yet again as he recounts his journey from skepticism to eventual acknowledgment of the reality of an evil spirit, even at the risk of being shunned by the medical establishment. In the process, he also finds himself compelled to confront the larger paradox of free will, of a commitment to goodness versus enslavement to the forms of evil, and the monumental clash of forces that endangers both sanity and the soul. Glimpses of the Devil is unquestionably among Scott Peck's most powerful, scrupulously written, and important books in many years. At once deeply sensitive and intensely chilling, it takes a clear-eyed look at one of the most mysterious and misunderstood areas of human experience.

Three former CIA officers share their techniques for lie detection, outlining methods for identifying deceptiveness as revealed by verbal and non-verbal behaviors from facial expressions and grooming gestures to invoking religion and using qualifying language.

In 1987 Ken Ham wrote what would become a prophetic warning to the Church about the destructive effects of compromise with evolutionary ideas, and how this compromise undermines Scriptural authority and erodes Christian confidence in the infallibility of God's Word. Today we have Christians not only confused when it comes to Genesis and age of the earth, but even the reality of Hell, Adam as a real person, and Christ's own words about creation, marriage and more are being debated in the pulpits across the world. In this special revised and updated edition, Ken Ham again takes the lead in pointing out the looming precipice the Church is rushing towards, how evolution and/or millions of years, is driving away young people of the faith, and the biblical solution that can change it!

"Courageous and inspiring."–Karen Armstrong, author of The Case for God "James Carroll takes us to the heart of one of the great crises of our times."–Stephen Greenblatt, author of The Swerve An eloquent memoir by a former priest and National Book Award-winning writer who traces the roots of the Catholic sexual abuse scandal back to the power structure of the Church itself, as he explores his own crisis of faith and journey to renewal NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY James Carroll weaves together the story of his quest to understand his personal beliefs and his relationship to the Catholic Church with the history of the Church itself. From his first awakening of faith as a boy to his gradual disillusionment as a Catholic, Carroll offers a razor-sharp examination both of himself and of how the Church became an institution that places power and dominance over people through an all-male clergy. Carroll argues that a male-supremacist clericalism is both the root cause and the ongoing enabler of the sexual abuse crisis. The power structure of clericalism poses an existential threat to the Church and compromises the ability of even a progressive pope like Pope Francis to advance change in an institution accountable only to itself. Carroll traces this dilemma back to the Roman Empire and the Middle Ages, when Scripture, Jesus Christ, and His teachings were reinterpreted as the Church became an empire. In a deeply personal re-examination of self, Carroll grapples with his own feelings of being chosen, his experiences as a priest, and the moments of doubt that made him leave the priesthood and embark on a long personal journey toward renewal—including his tenure as an op-ed columnist at The Boston Globe writing about sexual abuse in the Church. Ultimately, Carroll calls on the Church and all reform-minded Catholics to revive the culture from within by embracing anti-clerical, anti-misogynist resistance and staying grounded in the spirit of love that is the essential truth at the heart of Christian belief and Christian life.

Read this thought-provoking, critically acclaimed novel (6 starred reviews!!!) from Frances Hardinge, winner of the Costa Book of the Year, Costa Children's Book Award, and Horn Book-Boston Globe Award. Faith Sunderly leads a double life. To most people, she is reliable, dull, trustworthy—a proper young lady who knows her place as inferior to men. But inside, Faith is full of questions and curiosity, and she cannot resist mysteries: an unattended envelope, an unlocked door. She knows secrets no one suspects her of knowing. She knows that her family moved to the close-knit island of Vane because her famous scientist father was fleeing a reputation-destroying scandal. And she knows, when her father is discovered dead shortly thereafter, that he was murdered. In pursuit of justice and revenge, Faith hunts through her father’s possessions and discovers a strange tree. The tree bears fruit only when she whispers a lie to it. The fruit of the tree, when eaten, delivers a hidden truth. The tree might hold the key to her father’s murder—or it may lure the murderer directly to Faith herself. Frances Hardinge is the author of many acclaimed novels, including Cuckoo Song, which earned five starred reviews.

A Washington Post Notable Book of the Year As seen on the Netflix series Explained From the best-selling author of Cosmopolitanism comes this revealing exploration of how the collective identities that shape our polarized world are riddled with contradiction. Who do you think you are? That's a question bound up in another: What do you think you are? Gender. Religion. Race. Nationality. Class. Culture. Such affiliations give contours to our sense of self, and shape our polarized world. Yet the collective identities they spawn are riddled with contradictions, and cratered with falsehoods. Kwame Anthony Appiah's The Lies That Bind is an incandescent exploration of the nature and history of the identities that define us. It challenges our assumptions about how identities work. We all know there are conflicts between identities, but Appiah shows how identities are created by conflict. Religion, he demonstrates, gains power because it isn't primarily about belief. Our everyday notions of race are the detritus of discarded nineteenth-century science. Our cherished concept of the sovereign nation-of self-rule-is incoherent and unstable. Class systems can become entrenched by efforts to reform them. Even the very idea of Western culture is a shimmering mirage. From Anton Wilhelm Amo, the eighteenth-century African child who miraculously became an eminent European philosopher before retiring back to Africa, to Italo Svevo, the literary marvel who changed citizenship without leaving home, to Appiah's own father, Joseph, an anticolonial firebrand who was ready to give his life for a nation that did not yet exist, Appiah interweaves keen-edged argument with vibrant narratives to expose the myths behind our collective identities. These "mistaken identities," Appiah explains, can fuel some of our worst atrocities—from chattel slavery to genocide. And yet, he argues that social identities aren't something we can simply do away with. They can usher in moral progress and bring significance to our lives by connecting the small scale of our daily existence with larger movements, causes, and concerns. Elaborating a bold and clarifying new theory of identity, The Lies That Bind is a ringing philosophical statement for the anxious, conflict-ridden twenty-first century. This book will transform the way we think about who-and what—we're.
