The Neutron Stars programme is a structured reading programme with systematic progression, for teens/adults who need low level reading support.

This book puts forth new challenges and new methods for the planning of outdoor recreation and tourism. The first two chapters offer a description of the problems which the public and the private sectors are facing. Following chapters deal with several aspects of the problems, including trends and changes in outdoor recreation and tourism, previous policies of planning for recreation and tourism, shortcomings in policies and actions, and new approaches in several countries, such as the United States, France, Switzerland and The Netherlands. Finally, the book gives examples of new methods and approaches for the planning of outdoor recreation and tourism. These methods are demonstrated with specific areas or projects from the aforementioned countries. This book will be invaluable to all those who bear the responsibility of providing human beings with possibilities and facilities to spend their free time in their own desired way, namely landscape and urban planners, conservationists, and landscape ecologists.

Health and Wellness Tourism takes an innovative look at this rapidly growing sector of today's thriving tourism industry. This book examines the range of motivations that drive this diverse sector of tourists, the products that are being developed to meet their needs and the management implications of these developments. A wide range of international case studies illustrate the multiple aspects of the industry and new and emerging trends including spas, medical wellness, life-coaching, meditation, festivals, pilgrimage and yoga retreats. The authors also evaluate marketing and promotional strategies and assess operational and management issues in the context of health and wellness tourism. This text includes a number of features to reinforce theory for advanced students of hospitality, leisure and tourism and related disciplines.

Niche Tourism examines one of the fastest growing areas within the tourism sector. This book provides an integrated picture of speciality/niche tourism as a whole looking at both the 'macro' and 'micro' niche area. It has a comprehensive theoretical framework, and discusses initiatives, policies and strategies adopted internationally. With an emphasis on linking theory to practice, it is underpinned by up-to-date international case studies from around the world. Divided into 3 parts, it covers a variety of aspects under the headings of special interest tourism, tradition and culture base tourism and activity-based tourism.

2020 ALA Alex Award Winner 2020 Stonewall — Israel Fishman Non-fiction Award Honor Book
In 2014, Maia Kobabe, who uses e/em/eir pronouns, thought that a comic of reading statistics would be the last autobiographical comic e would ever write. At the time, it was the only thing e felt comfortable with strangers knowing about em. Now, *Gender Queer* is here. Maia's intensely cathartic autobiography charts eir journey of self-identity, which includes the mortification and confusion of adolescent crushes, grappling with how to come out to family and society, bonding with friends over erotic gay fanfiction, and facing the trauma and fundamental violation of pap smears. Started as a way to explain to eir family what it means to be nonbinary and asexual, *Gender Queer* is more than a personal story: it is a useful and touching guide on gender identity—what it means and how to think about it—for advocates, friends, and humans everywhere. This special deluxe hardcover edition of *Gender Queer* features a brand-new cover, exclusive art and sketches, and a TK from creator Maia Kobabe.

Wildlife watching tourist activities can make an important contribution to community development and conservation, especially in developing countries, but it needs to be carefully planned and managed in order to ensure its long-term sustainability and to avoid potential adverse effects on wildlife and local communities. This report, published by UNEP and the Secretariat of the Convention on the Conservation of Migratory Species of Wild Animals (CMS), considers the socio-economic and environmental benefits that can be derived from watching wildlife tourism, including case studies from Brazil, Argentina and Mexico, the United States, Australia, Indonesia and Tanzania.

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.
